## 2. HAZARD IDENTIFICATION

Category 3: Warning! May cause mild skin irritation on prolonged or repeated exposure.  
 Category 2B: Warning! Causes eye irritation.  
 Category 3: Warning! May cause respiratory irritation. May cause respiratory sensitization on repeated exposure due to excipient grain dust

## 3. COMPOSITION

Mixture of minerals, protein meal, molasses and oil suitable for nutritional supplementation of livestock. **Contains monensin 1000mg/kg.**  
 Disclosure of ingredient names is not required by the WHS Regulations for those ingredients that meet only physical and/or environmental hazard classifications or for non-hazardous ingredients.

## 4. FIRST AID MEASURES

**EYE CONTACT:** Rinse cautiously with water for several minutes. Remove contact lenses if present and practicable. Continue rinsing.  
**SKIN CONTACT:** Rinse skin with water (and soap if available). Apply a skin emollient if necessary.  
**INHALATION:** Move to fresh air and keep at rest in a position comfortable for breathing.  
**GENERAL:** If irritation persists seek medical attention.  
**INSTRUCTION TO MEDICAL PROVIDER:** Treat symptomatically (in each case).

## **5. FIRE-FIGHTING MEASURES**

Generally non-combustible but may produce toxic fumes such as carbon monoxide and oxides of sulphur when involved in a fire.

Spraying with water is suitable for extinguishing. Avoid direct application of high-pressure streams of water as this may generate combustible dust.

## **6. ACCIDENTAL RELEASE MEASURES**

Shovel or sweep spills. Avoid excessive generation of dust. Use PPE if prevailing weather causes exposure to dust. Avoid contamination of drains as material may partially set on exposure to water.

## **7. HANDLING AND STORAGE**

Keep securely stored. Keep out of reach of children.

Protect from exposure to moisture, heat and direct sunlight. Store apart from agricultural chemicals, veterinary chemicals and restricted animal material.

## **8. EXPOSURE CONTROLS AND PERSONAL PROTECTION**

Use in a well-ventilated area. Minimise generation of dust if possible. Wear eye protection with side panels and a simple dust mask if necessary.

Exercise good personal hygiene after use.

## **9. PHYSICAL AND CHEMICAL PROPERTIES**

Granular powder of variable colour with a mildly earthy smell.

## **10. STABILITY AND REACTIVITY**

No reactivity hazards identified.

## **11. TOXICOLOGICAL INFORMATION**

Product is toxic in various non-target species. Muscle is typically the target organ.

## **12. ECOLOGICAL INFORMATION**

Monensin is potentially harmful to aquatic life. Avoid contamination of waterways.

## **13. DISPOSAL**

Dispose of product by burial. Dispose of containers according to municipal regulation.

## **14. TRANSPORT INFORMATION**

No specific transport requirements.

## **15. REGULATORY INFORMATION**

Not subject to any specific regulatory control.

Poisons schedule: NIL
