

# **SUPERIOR HI-MAG GREEN FEED BOOSTER**

**A high specification macro-mineral, trace element and vitamin loose lick for sheep or cattle grazing lush green pasture or cereal forage crops.**

## **SUITABILITY**

Sheep and cattle of all ages  
Grazing lush, high moisture green pasture or cereal forage

## **FEATURES**

High specification ingredients  
High bio-availability  
Comprehensive range of macro-minerals, trace elements and vitamins  
High magnesium level to help prevent deficiency and reduce risk of grass tetany  
Contains bentonite to help slow the passage of lush green feed through the gut

## **BENEFITS**

Complements macro-mineral levels in lush pasture and forage to improve utilisation  
Supplies essential trace elements and vitamins  
Can enhance growth rates, weight gains and performance in young stock  
Supports the immune system resulting in healthier stock  
Can help reduce incidence of scouring on lush green feed.
