

## SUPERIOR STUD CONCENTRATE

**A high specification macro-mineral, trace element and vitamin supplement specifically formulated for stud cattle.**

### SUITABILITY

Stud cattle growing out and in preparation for show or sale  
Grazing, supplementary feeding or total mixed ration feeding

### FEATURES

Comprehensive range of macro-minerals, trace elements and vitamins  
High sulphur to support rumen protein synthesis, weight gains and definition  
High phosphorus level to support bone and muscle development  
High magnesium to moderate temperament on grain rations  
Biotin and zinc to improve integrity of hooves, horns and hair

### BENEFITS

Optimum rumen function, protein synthesis and feed conversion efficiency  
Can enhance growth rates, finish and presentation of stud stock  
Nutrient balance supports stud stock to achieve genetic potential  
Supports the immune system resulting in healthier cattle

### SPECIFICATIONS

Calcium	Ca	17.0%	Chromium	Cr	16mg/kg
Phosphorus	P	5.1%	Vitamin A		200KIU/kg
Magnesium	Mg	4.7%	Vitamin D3		40KIU/kg
Sulphur	S	4%	Vitamin E		1000mg/kg
Copper	Cu	600mg/kg	Vitamin B1		120mg/kg
Cobalt	Co	20mg/kg	Molasses		3%
Selenium	Se	20mg/kg	Salt		10%
Zinc	Zn	1600mg/kg	Biotin		40mg/kg
Manganese	Mn	1600mg/kg			
Ferrous Iron	Fe	1200mg/kg			
Iodine	I	20mg/kg			

### DIRECTIONS FOR USE

Add 25kg/mt of mixed grain and roughage or grain supplement  
Introduce grain feeding gradually over 14-21 days  
Customised ration formulation available on request

### PRESENTATION

25kg bag, 1mt bulka bag

### DISCLAIMER

Ensure ad-lib access to fresh clean water
